Education

Indian Institute of Information Technology (IIIT) Jabalpur

Aug 2023 – Present

Bachelor of Technology

Jabalpur, Madhya Pradesh

Summary

Aspiring **Backend Developer** and **Full Stack Engineer** with hands-on experience building scalable, production-grade web applications using **Python, JavaScript/TypeScript, C++, Node.js, React.js, and REST APIs**. Open-source contributor via **GSoC'26** (Sugar Labs and Cuneiform Digital Library Initiative). Active hackathon participant – **SIH, MLH HackByte 3.0 (Winner), and Meta Hackathon** – with strong expertise in agile development, rapid prototyping, and cross-functional collaboration.

Technical Skills

- **Languages:** Python, JavaScript (ES6+), TypeScript, C++, C#, SQL
- **Frontend:** React.js, Next.js, Tailwind CSS, Zustand, Axios, HTML5, CSS3, Responsive Web Design, WebSocket (Socket.io)
- **Backend:** Node.js, Express.js, RESTful API Design, JWT Authentication, Bcrypt, HTTP Security, MCP Server Integration
- **Databases:** MongoDB, MongoDB Atlas, MySQL, Firebase Firestore, NoSQL, Relational Databases
- **DevOps and Tools:** Git, GitHub, GitLab, CI/CD Pipelines, Netlify, Appsmith, Agile Development
- **Concepts:** Data Structures and Algorithms, System Design, OOP, Authentication and Authorization, Web Security (XSS, CSRF)

Work Experience

Full Stack Developer Intern

May 2025 – July 2025

Datavio, Bangalore, India

- Engineered an automated alert system to detect unauthorized third-party sellers on **Flipkart** for client **Boldfit**, strengthening brand protection and reducing marketplace compliance violations by **30%**.
- Designed and delivered an end-to-end Purchase Order lifecycle management dashboard for **Bikaji Foods**, tracking **5+ crore INR** worth of orders across procurement stages, improving supply-chain visibility for stakeholders.
- Integrated **RESTful APIs** and optimized data queries across relational (MySQL) and NoSQL (MongoDB) databases, enabling real-time dashboard updates and reducing manual reporting overhead by **40%**.

Open Source Developer – Google Summer of Code (GSoC) 2026

May 2026 – Present

Sugar Labs & Cuneiform Digital Library Initiative (Remote)

- Contributing to **Sugar Labs** and **Cuneiform Digital Library Initiative**, implementing new features, resolving bugs, and improving documentation following open-source best practices and version control workflows.

Projects

Pulse Chat | Next.js, Node.js, Express.js, MongoDB, Socket.io, JWT, Zustand

May 2026

- Built a full-stack real-time chat application with **Socket.io WebSocket** connections for instant messaging and live online-status tracking using **Next.js**, Node.js, and MongoDB.
- Secured auth pipeline using **Bcrypt** password hashing and HTTP-Only cookie **JWT** storage, mitigating XSS and CSRF vulnerabilities; responsive frontend via **Tailwind CSS** and **Zustand** state management.

BiteSpy | Next.js 16, TypeScript, MCP Server, Firebase, MongoDB Atlas, AI Integration

April 2026

- Built a **full-stack AI-powered** platform for detecting misleading food labels using **Next.js 16**, TypeScript, Firebase Authentication, and MongoDB Atlas; deployed on Netlify.
- Integrated a custom **MCP server** with 5 AI tools (OCR, ingredient analysis, claim verification) via the ArmorIQ SDK, enabling a structured multi-agent pipeline with a dual-database **Firebase Firestore + MongoDB Atlas** backend.

InstiCon MLH HackByte 3.0 | C#, Unity 6, Google Gemini API

August 2024

- Built a **Unity 6** virtual community platform for real-time cross-college collaboration; won **1st place among 200+ participants** at MLH HackByte 3.0.
- Engineered an **AI-driven NPC** using **Google Gemini API** to provide instant information on clubs, events, and campus logistics.

Achievements

- **Winner MLH HackByte 3.0:** First place among **200+ participants**; excellence in full-stack development, rapid prototyping, and cross-functional teamwork under time constraints.
- **Competitive Programming:** Solved **600+ problems** across LeetCode, Codeforces, and CodeChef; strong command of data structures, algorithms, and system design.
- **Core Committee Member, Aero Fabrication Club IIIT Jabalpur** (Aug 2024 Present): Co-coordinated Annual Water Rocket competition for 100+ students; represented institute at **SAEINDIA Aerothone 2024** and **IIT Roorkee Cognizance Flight Fury**.

Activities

- Runner-up in multiple intra-college debate competitions; recognized for structured argumentation, strategic analysis, and public speaking.
- Active member of the **Programming Club**, organizing technical sessions and workshops for junior students while contributing to event planning and execution.
